

# MEMORANDUM

I W a n t i t N o w

**TO:** Mr. Lavendel  
**FROM:** Dr. Krewl, Period 6  
**CC:** Computer Applications 1 Class  
**DATE:** Thursday, August 6, 2024  
**SUBJECT:** Something That I Want

Mr. Lavendel I want you to **let my friends the students Chill In Class**. You need to stop making them work so freakin' hard, and really, that Mindfulness crap is seriously rotting their minds. All that work and listening to you rant and rave, may be amusing and thought provoking, but it is distracting them from what I want them doing. That is to **stop thinking, believe in what I am telling them** and to **buy the shit that I am selling**.

Let me tell you three good reasons why I want these things. First, **if they wake up and think too much they may start questioning the things that I am telling them to believe**. Second **if they think about it then they may not want the stuff that I am selling**. And three, **I want to be rich, rich, rich**.

Listen to my jive and be alive... Make my life easier and I may just lay you into **a cut of my action** Mr. L, or **let you hang wit me** and my crew for a bit.

DK
